CERTIFICATION: ESSENTIAL KNOWLEDGE IN THE CLINICAL USE OF PEPTIDES FOR AGE MANAGEMENT MEDICINE

The use of Peptides and Peptide Therapies has experienced exponential growth over the past few years. Their uses range from impacting hormonal change, to antibiotic properties, to treatments for conditions of aging such as cancer, cardiovascular health, memory & brain health and sexual function.

AMMG in conjunction with the Clinical Peptide Society have an educational mandate to fill the knowledge gaps for Physicians and Healthcare Professionals. This course is focused on essential knowledge in the clinical use of Peptides for Age Management including a final examination for Certification.
